

Impressive Chromakey studio in the media heart of Hilversum

With access to every conceivable facilities and professional support, our new studio gives you the power to really bring ideas to life.

It's time to Upgrade Your Game.

GENERAL INFO

Over the past few years, a lot of work has been done on the development of a completely new greenscreen studio. This studio is intended for makers who are looking for a space that offers all possibilities to give shape to ideas. A talk show in a virtual set, a business presentation of a new product or a photo shoot with presenters or artists. Everything is possible in the media heart of Hilversum..

FACILITIES

In collaboration with our media partner EMG, we facilitate content creation with the latest generation of facilities and passionate service-oriented professionals. The studio is equipped with a light grid fitted with reflectors, which makes it possible to create razor-sharp images chromakey recordings and enriching images by adding 3D LIVE models. Through the Unreal engines, everything can be shown in full 3D to the camera, and thus to you.

SERVICE

We like to think along with you. Below are some specifications to find:

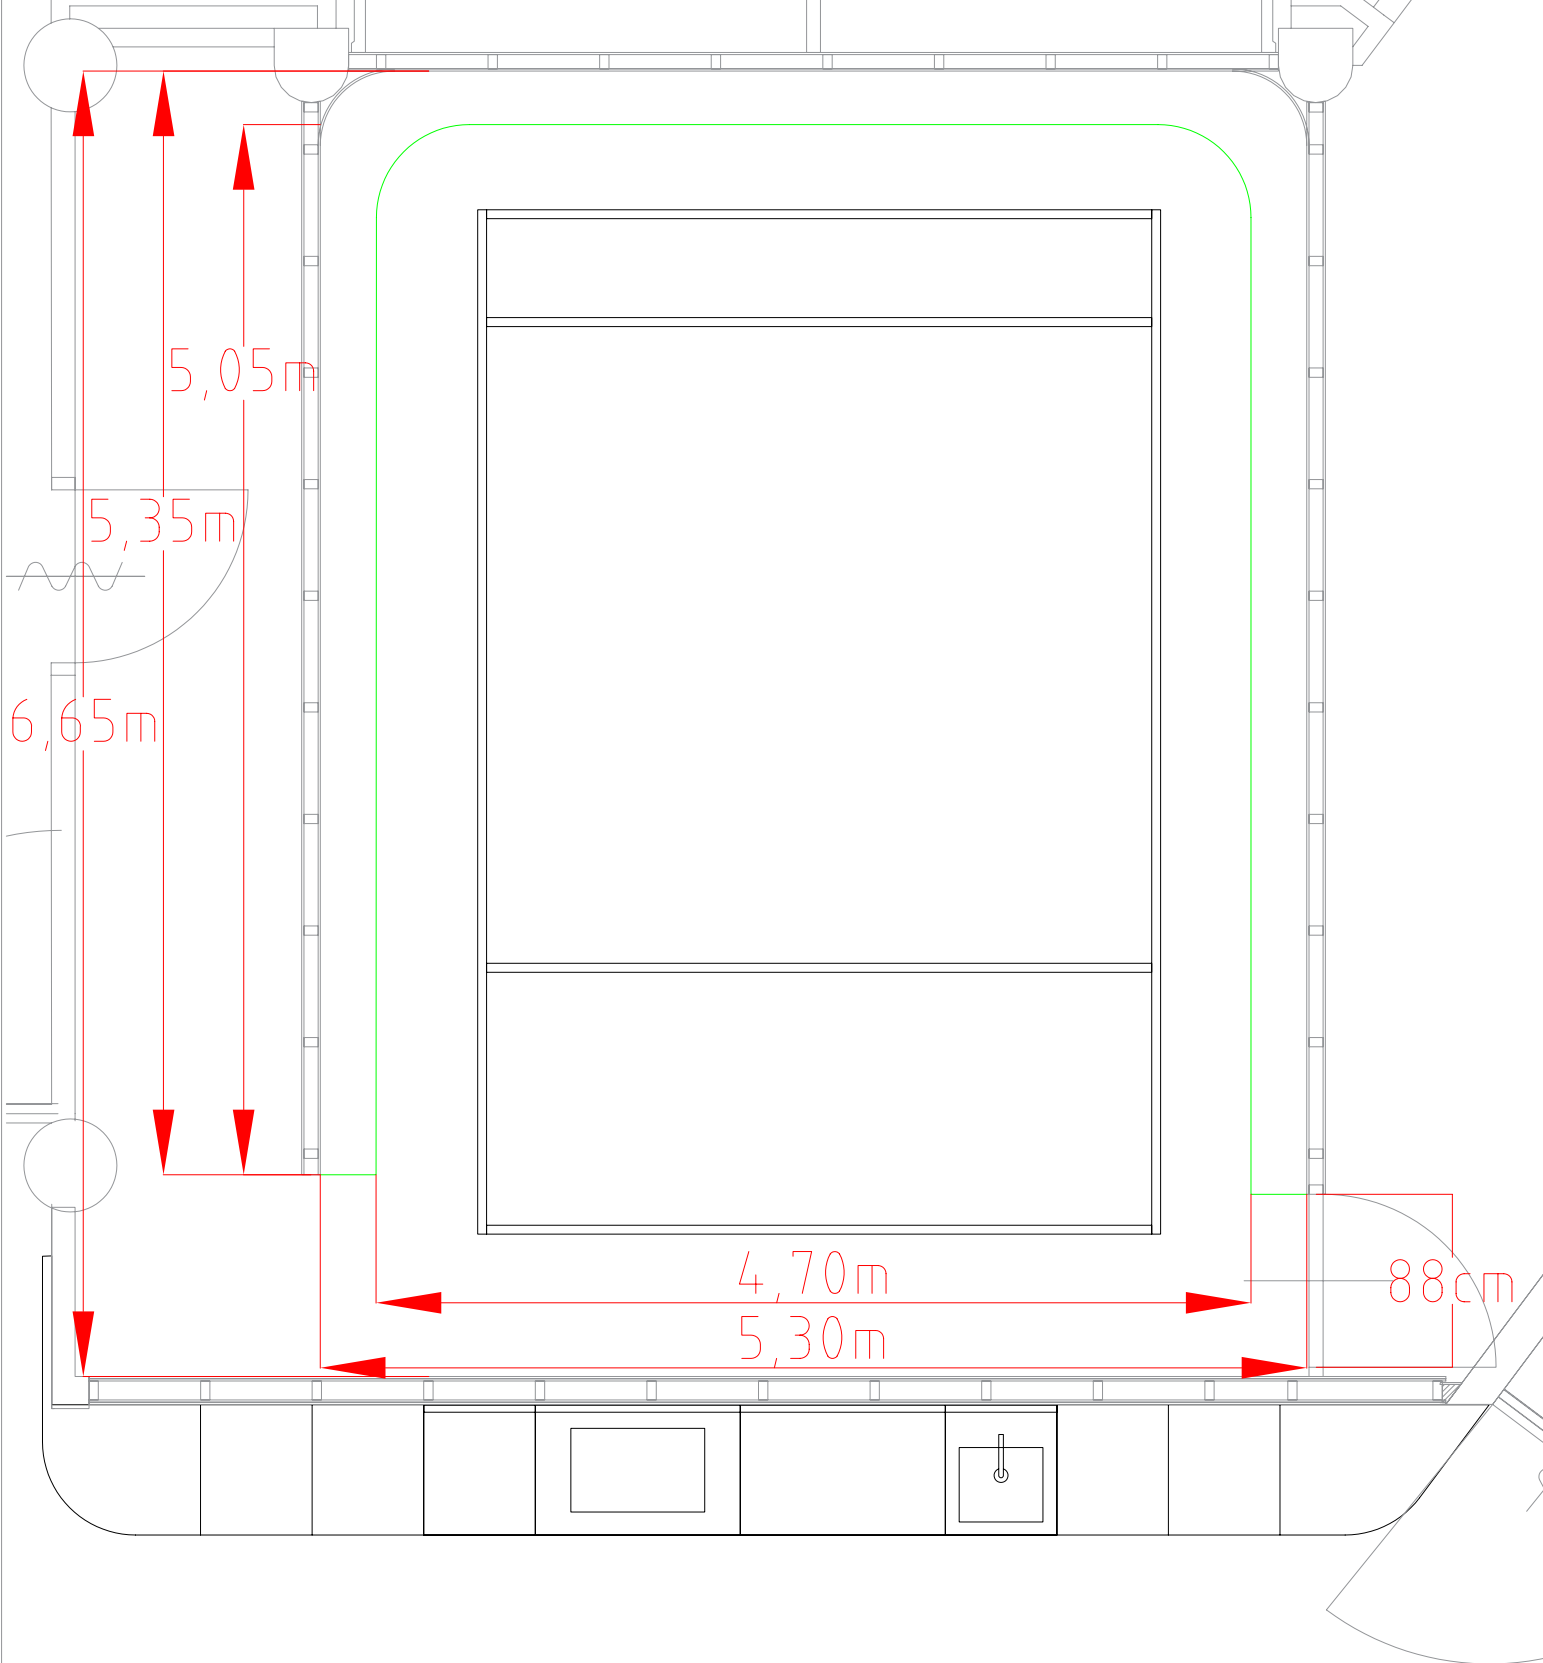

- Optical Tracking
- Chromakey
- Fully LED lit
- Remote camera
